Engine Capacity: **4,235 cc**

Body Type: **Coupe**

Colour: **BLACK**

Previous Keepers: **8**

Description

Here we have an iconic piece of British motoring history, in this Jaguar E-Type series 2 made for the UK market, finished in black with timeless curves and powered by the legendary 4.2 straight six engine. Manufactured in 1969 and first registered in March 1970. The car is showing 95022 miles. Some time in its life it was changed from Light blue to black, in the extensive history file we have, we cannot find, when, or where it was done, but it is of a very good quality. The car was originally supplied to Henlys of London through one of their retail dealers being Alec Norman (Garages) Ltd who were based in Sun, Street Potton in Bedfordshire who were Jaguar and Daimler main dealers. They sold this E-Type to the local Foundry, Clark and Son in March 1970. We have very little history for the first 11 years of its life in which we believe it covered somewhere in the region of 77000 miles. Since then we have a comprehensive file with various works and MOT's and it has covered only 18000 miles in the last 44 years, one of the previous owners has listed all the old mot's and mileages covered in the year. The current owner has owned the car for the last 9 years, purchased from Arun Jaguar, and in that time he covered the grand total of 1762 Miles!! Hence it has now come to market for someone else to enjoy and cherish. As the founder of Jaguar Sir William Lyons said Jaguars have grace,pace and space. If you are looking for a very well priced classic this could be the car for you. It is currently in our Showroom in Chichester. Please call on 01243 781111 if you would like to make a viewing appointment
